*University of Colorado at Boulder*

Completed B.A.S in Speech Language and Hearing Sciences

### +AMS Lower Elementary Montessori Credential // June 2019

*West Side Montessori School Teacher Education Program*

## History of Experience

### +Lower Elementary Lead Guide // August 2019 – Present // Santa Ana, CA Montessori International Academy

Currently teaching at a bilingual school for Japanese-American families. I am the lead teacher for the 1st through 3rd grade class in all English lessons. I teach according to the Montessori philosophy of following the child as an individual. I prepare appropriate lessons, materials and homework for each child based on their skill level. Gained skills in leadership, organization, time management, and interpersonal communication with parents and co-workers through language barriers.

### +Lower Elementary Lead Guide // August 2018 – June 2019 // New York, NY Windmill Montessori School

During my first year of teaching I truly learned what it meant to cultivate a nurturing, respectful, safe and inspiring environment for students. I provided support for each child in areas of struggle or challenge and celebrated his/her strengths. I ensured the Montessori methods, lessons and individual needs of each student was well addressed. I planned weekly, monthly and yearly curriculum plans for first, second and third grade students and observed and recorded daily reports of all students in classroom.

### +Activity Assistant // October 2017 - June 2018 // New York, NY Snack\* & Friends, Inc.

Snack\* provides after-school and weekend recreational programs for children, teens and adults with Autism Spectrum Disorder and other developmental and behavioral disabilities. As an activity assistant, I work with the children in group and individual activities. This gives the children opportunity to make friends, improve skill levels, build confidence, work, and participate in activities that we want typical kids doing everyday.

### +Therapy Assistant // July 2016 // Estes Park, CO

Worked alongside Physical, Occupational and Speech therapists at a summer camp for children with Down syndrome.

During the summer at Adam's Camp, I assisted in the preparation of developmental and individual education goals for children ages 3 to 7 with Down syndrome. While working with three therapists we practiced multiple forms of therapy through constructive play. I recorded their progress throughout each week.
